About Me

A Self-taught and highly passionate React Native developer with 3+ years of hands-on experience in designing, developing and implementing pixel perfect and fully responsive applications using a range of technologies and programming language. I'm looking for a career where I can utilize my skills and knowledge to solve some real world problems while making a significant contribution to the success of the company and continue to feed my appetite for knowledge and share that knowledge with those around me (and learn from them in the process)

Skills

Programming	JavaScript, Python, Java
Frontend	React Native, ReactJS, Redux, Expo, HTML, CSS
Backend	Django, Flask, NodeJS, ExpressJS, REST APIs, MongoDB, MySQL, PostgreSQL, OracleSQL, Firebase
Tools/Software	Visual Studio Code, Xcode, Android Studio, Web Socket, Postman, Chrome Developer Tools, Git, Bitbucket, NPM, Yarn
Languages	Hindi, English

Work Experience

Mentobile Technology LLC

Gurgaon, India

REACT NATIVE DEVELOPER

Sep. 2019 - Present

- Here I'm Responsible for developing Mobile Application from scratch for android and iOS and deploying it on Play Store and App Store.
- Developed Pixel-Perfect fully responsive user-interface from mock-up designs and optimized code to improve application performance.
- Developed many reusable components for modularized design and for future use.

Projects

Vegifal

React Native, Redux, Redux Persist

DAILY GROCERY APP

June. 2022 - July. 2022

- Here I'm developing Daily Grocery Mobile Application for android and iOS using React Native.
- Developed Pixel-Perfect fully responsive user-interface from mock-up designs and optimized code to improve application performance.
- Developed multiple reusable components for modularized design.
- Used customized open cart api for grocery product display.
- The major integration within the app were google maps and google places api for getting the user current location detail and Cashfree Sdk for payment gateway integration.

HappiSleep

React Native, Redux, Redux Persist

PERSONALIZED SLEEPING PATTERN APP FOR CHILD

Apr. 2022 - June. 2022

- Developed a personalized sleeping pattern app for child from scratch for android using react native.
- The Functionalities included in the application are user can login and register, add the child name, add the child sleep data by answering simple questions, see the sleeping data pattern with graph, get personalized nutrition recommendation.
- The Major Integration within the app were back-end APIs with authentication, login as guest functionality, fingerprint authentication, firebase push notification.

Intrabulls

React Native, Redux

FANTASY STOCK TRADING APPLICATION

Jan. 2022 - March. 2022

- Developed a fantasy stock trading application from scratch for android and iOS using react native.
- Developed Pixel-Perfect fully responsive user-interface from mock-up designs and optimized code to improve application performance.
- The functionalities included in this application are user can login, register via phone number or social login, join the contest, buy and sell the stock, see the particular stock trading history, add the real cash in wallet, withdraw the real cash in bank account or wallet.
- The Major Integration within the app were back-end APIs with authentication, firebase push notification, used Cashfree sdk for payment gateway integration.

ProGamesLeague

React Native, Redux

FANTASY SPORTS GAMING PLATFORM

App Store Website

- Developed a fantasy sports gaming platform application from scratch for android and iOS using react native.
- Where the users will be assembling their own virtual teams of real sports and get chance to compete with others virtual teams.
- The functionalities included in this application are user can login, register via phone number or social login, can join free and paid contest, select the players, create the team, edit the team, view the team, compare the team, add the real cash in wallet, withdraw the real cash in bank account or wallet.
- The Major Integration within the app were back-end APIs with authentication, firebase push notification, payment gateway integration.

WinORyx

React Native, Redux

FANTASY SPORTS GAMING AND TRADING PLATFORM

App Store Website

- Developed a fantasy sports gaming platform application from scratch for android and iOS using react native.
- Where the users will be assembling their own virtual teams of real sports and get chance to compete with others virtual teams also it provides a game of skills for user to buy and sell, trade players and earn profit instantly.
- The functionalities included in this application are user can login, register via phone number or social login, can join free and paid contest, select the players, create the team, edit the team, view the team, compare the team, add the real cash in wallet, withdraw the real cash in bank account or wallet.
- The Major Integration within the app were back-end APIs with authentication, firebase push notification, payment gateway integration.

CrickGuru

React Native

CRICKET LIVE SCORING APP

Play Store

- Developed the android and iOS application from scratch using React Native.
- The major integration within the app were web socket to fetch the live score in real time.

OldUmpire

React Native

CRICKET LIVE SCORING APP

Play Store

- Developed the android application from scratch using React Native.
- Developed Pixel-Perfect fully responsive user-interface from mock-up designs and optimized code to improve application performance.

SportGuruji

React Native

CRICKET LIVE SCORING APP

App Store Play Store

- Developed a Cricket Live Scoring App from scratch for android and iOS using react native.
- User can see live cricket score and listen ball by ball commentary with detailed score card and match detail.
